SYNOPSYS®

WhiteHat Dynamic
Customer Support

Keep your business running in production with quick response times, without impacting performance or your bottom line.

Your WhiteHat Dynamic support team

WhiteHat™ Dynamic from Synopsys delivers best-in-class customer service and technical support to assist and resolve problems critical to your business. Our support organization is a dedicated team of technical experts that works with our customers to provide the most effective and timely support, with accountability and trust.

There are two levels of support available: Standard and Premium.

Standard support includes

- Access to our secure customer support portal to review knowledge articles and create and view support cases
- The Ask a Question feature to get help from vulnerability team specialists
- Available 12:00 a.m. to 7:00 p.m. PT, Monday through Friday, excluding holidays

Premium support includes

- All the features of Standard Support
- Up to 10 hours per week with a technical account manager as your contact to guide and assist
- Direct access, which enables faster resolution, regular reporting, internal advocacy

Support services

Whenever you need expert assistance, we are just a click, email, or phone call away.

The customer support web portal enables customers to log, track, and update cases online. It also offers the latest security updates, FAQs, training information, and product documentation.

Customer support web portal

All customer support reference materials can be found on our support page.

If you are unable to find a solution from the documentation provided, you can create a support case using one of three methods.

• Use the Customer Support Portal
• Open a ticket or query via email to support@whitehatsec.com

LEVEL	DESCRIPTION	RESPONSE TIME	
Severity 1 Mission-critical	• WhiteHat Dynamic down: Any problem within WhiteHat's control that completely prevents customer from accessing services • Suspected breach of an asset currently being scanned by WhiteHat	< 2 hours	< 1 hour
Severity 2 Serious	• Impaired: Any problem within WhiteHat's control that limits customer ability to run an assessment, access major portions of the service, or retrieve results • Business logic assessment credential issues	Next business day (24 hours)	< 4 business hours
Severity 3 Medium	• WhiteHat Dynamic has errors but is still fully functional • Most vulnerability questions (via the Ask a Question feature) • Scanner issues (scan progress, scan coverage questions)	Next business day (24 hours)	Next business day (24 hours)
Severity 4 Low	• General questions • Recommendations for future product enhancement	Next business day (24 hours)	Next business day (24 hours)

The Synopsys difference

Synopsys provides integrated solutions that transform the way you build and deliver software, accelerating innovation while addressing business risk. With Synopsys, your developers can secure code as fast as they write it. Your development and DevSecOps teams can automate testing within development pipelines without compromising velocity. And your security teams can proactively manage risk and focus remediation efforts on what matters most to your organization. Our unmatched expertise helps you plan and execute any security initiative. Only Synopsys offers everything you need to build trust in your software.
